  - Reviewed team members submissions

Project Issues

- Status on the carbon footprint calculator API.

Project Changes

Since the last vlog/scrum, we:

- Updated our GitHub with asset images and app prototypes (login and signup page)
- Set up a Google Firebase account and a dashboard for us to access
- Started iterative development

Documentation Overview

Things we have done for this scrum:

- High-level expectations have been finalized
- Cleaned up and updated our Kanban and USM boards
- Tested our lo/hi-fidelity prototypes
- Started developing the signup and login pages

Next Up

- Continue iterative development.
- Work on user stories
    - Complete login and sign up page
        - Complete verification of users
        - Testing
    - Work on the forum
        - Build the basic layout
